Go to the people. Live with them. Learn from them. Love them.

Start with what they know. Build with what they have.

But with the best leaders, when the work is done,
the task accomplished, the people will say:

Jeevantirth Road Map

2021-22 to 2023-24

Creating a Learning Society for Sustainable Development https://jeevantirth.org/

Our VMROSP, Genesis & Brief Introduction

Our Vision:

Nature's Bounty + Human Wisdom = Paradise on Earth! Life is perpetual YOGA.

Every moment we have to make a CHOICE.

Our vision is this:

'WE ALL MAKE RIGHT CHOICE IN OUR LIFE ALWAYS!'

Our Mission:

To make effort that every citizens dare to

THINK INDEPENDENTLY and LIVE THEIR CONVECTION. They become GLOBAL citizens by letting go their narrow identities and barriers while nurturing their local culture and heritage. They become physically HEALTHY, mentally WISE, heartily LOVING and spiritually SOUND.

Role: To facilitate learning

Objective: To create a Learning Society.

Strategy: CSR and Local-Global Partnership Projects.

Programs: Need-based, innovative, Low- Cost, Action-based Educational Research Programs having High Impact, Scalability and which can be replicate in different environment also

which can be replicate in different environment also.

Ours is a 'Nation Building Organization' JOIN US

Our Values: 1. Integrity

2. Reverence for Life

Web URL: www.jeevantirth.org

3. Inclusiveness

4. Collaboration

5. Innovativeness

Genesis and Brief Introduction

Jeevantirth is established on 14th July 1997 by Raju and Deepti, a couple who became active in social life since "Movement for Total Revolution" initiated by Loknayak Jayprakesh Narayan, renowned Gandhian in 1973-74.

Raju is M.E. (Mech.-Prod. Eng.), Deepti is B.Com. LLB, M.A. (Gandhi Darshan). They got married in 1985 and decided to leave their lucrative professional careers in 1985 to take up full time social work. They are also Ashoka Fellows of 1987-89.

Jeevantirth literally means "Life Pilgrimage". Reverence for life is the foundation stone of Jeevantirth Trust. Logo of Jeevantirth suggests that we want world without war. By breaking war based economy and creating a non-exploitative world with Equality and Justice we can bring Harmony and lasting Peace. Whatever we do and whenever we evaluate the work of Jeevantirth, we always keep in our mind our motto — To be full of Joy, Love and Understanding and to spread them.

Jeevantirth is mainly working in the fields of Education, Environment, Rural Development and Human Rights related issues. Along with direct implementation of the innovative cost effective projects, Jeevantirth has specialized itself in capacity building of the grass-root organizations, teacher's training and material development.

We believe in "Think Globally, Act Locally." And that's why we also align our work with Sustainable Development Goals.

SDGs and Jeevantirth

Our Work

in Context of

SDG

CLIMATE ACTION

EDUCATION

We at Jeevantirth are ready to respond positively in our own way. We look for local, government, corporate and global partnership so that at least in a small corner of the world where we work, goals become reality. It can have Butterfly Effect!

Think Globally, Act Locally!

At the core of this global agenda for 2030 is the principle of universality: 'Leave No One Behind'. Jeevantirth's Vision and Mission are in congruence with SDGs, National Priorities and State action plan. NITI Aayog, the Government of India's premier think tank, has been entrusted with the task of coordinating the SDGs. State governments are key to India's progress on the SDG Agenda as they are best placed to 'put people first'. This diagram shows on which SDGs we work as of now.

Our Role is clear in our mind. We want to facilitate lifelong learning and want to help the people to help themselves. Our Objective is to strive for establishing harmony within and without. This can be accomplished by sustainable development based on equality and justice.

Our Strategy is to be full of Joy, Love and Understanding, so that we can inculcate these values in the next generation.

Our response to global pandemic Covid-19:

As per WHO, "The world is facing an unprecedented challenge with communities and economies everywhere affected by the growing COVID-19 pandemic. We at Jeevantirth also took a call, spreading awareness among communities and directly helping the most vulnerable sections of society in our own limited reach.

- 1. Door to Door Mass Awareness Campaign to make people aware to wear mask, keep physical distancing and techniques of hand washing.
- 2. Providing Dry Ration Kits to Migrant Laborers locked up in 30 Night Stay Homes of Ahmadabad.
- 3. Distribution of about 1300 Dry Ration Kits to Rag Picker Women in 'RamaPirNo Tekro' and surrounding slums of Ahmadabad.
- 4. Supporting Camp at Limkheda for Migrant Laborers going to MP and Rajasthan.
- 5. Preparing Gujarati version of "Psychosocial Support for Children during COVID-19 A Manual for Parents and Caregivers" prepared by Childline and Unicef.

Looking to the long-term effect of covid-19, we are redesigning our strategic plan so that we can serve most vulnerable and badly affected communities especially focussing on children and women.

Jeevantirth Trust Registration Number: F/499/Gandhinagar

Organization Structure & Core Team

Jeevantirth is a happy family. We all cherish life together and do service to the under-privileged section of the society to the best of our capacity. Mutual love and affection is visible in everyday life at Jeevantirth. We work together, we grow together and we celebrate together.

Jeevantirth Organizational Chart 2020-21 **Board of Trustees** General Assembly Project Support Advisorv Executive Unit Board Committee Project Financial Management Material Development and Training Directors Materials Management Research and Development Evaluation and Impact Assessment Outreach and Public Relations Project Coordinators Field Staff

Raju Deepti - B.E. Production, M.E. Mechanical (Production)
Project Director - Environment, Training and Material Development.
Builds and maintains profound relationships with people,
acts as a guide, critical friend and well-wisher.

Deepti Raju - B.Com, LLB, MA (Gandhi Darshan)
Project Director - Women Empowerment and Project Support Unit. *Meticulous planner having abled management skills. Prolific writer, editor and translator.*

Preeti Shah - B.Sc.
Project Director - Education.
Educationist having strong belief in knowledge construction, developer of effective teaching learning materials, experimenter in education.

Himmat Chauhan - B.A. Project Director - Rural Development. Community mobilizer, task master and unique rapport building skills with high reputation in social field and govt sector.

Kamlesh Dabhani - P.T.C.
Project Director - Urban Initiative.
Dedicated grass-root activist having high caliber of management skills and great acceptance in community.

SWOT Analysis

- OUR PEPOLE is our Real Strength!
- Rural Poor, Urban Slum dwellers, Dalit, Tribal,
- Socio-Economically-Educationally backward communities.
- Strong grass-root presence, need-based programs, committed team.
- Learning Organisation.

Strengths

Opportunities

- Scope for crowd-funding, CSR & PPP Projects.
- Global partnership towards SDGs
- New emerging interests and trends like social business, social entrepreneurship & bridge agencies to link prospective donors and civil society initiatives.

- Lack of reserve fund or corpus.
- Lack of strong presence in social media.
- Lack of expertise in showcasing our work.
- Lack of proper use of ICT.
- Absence of resource mobilization skill and team.

Weaknesses

Threats

- Negative impact of covid-19.
- Crony capitalism, religious fundamentalism, politics of hatred & cult of violence.
- Challenges of VUCA World .
 (Volatility, uncertainty, complexity, and ambiguity)

URBAN INITIATIVE

Serving the People who keeps City Life Throbbing!

Generation after the other our lands got divided. In search of employment we sought the only way and came to the cities. Did trivial jobs and labor work and earned our daily bread. What do we ask for at the most? Primary amenities, basic services and respectful place in the society. Would you provide us with those?

Gujarat tops in pace of urbanization, Gujarat's urban population is now 44.46%, 90.6% of Gujarat's rural migrants refuse to go outside the state, finding the state a better place to live in, which is the main reason for the rapid pace of urbanization. Realizing this Jeevantirth started UI in biggest slum of Ahmadavad, RamaPir No Tekro at Vadaj in 2009-10. There are about 35,000 families in the area and many families are "Rag pickers Families". About seven thousand women are doing this work from the area. Still long way to go, but following activities are being carried out throughout the year.

This Roadmap and PSP

Jeevantirth believes in planning for good. Whatever we do, we undergo through Participatory Strategic Planning in which we do local and global context analysis, revisit our VMROSP and do our SWOT analysis. We plan our projects, do our "business plan" on an organizational level every year and chart our roadmap or develop strategic plan for 3 to 5 years through PSP.

Taking best advantage of Covid-19 pandemic time, we undertook rigorous process of organizational development for 3 months and worked out our business plan and this roadmap. We have also benefited greatly from two national level programs:

- 1. **Global Action of Poverty** conceptualized as a movement to harnesses the power of "for-profit organizations" (corporate and professionals) to help "Social Impact organizations" (NGOs/social enterprises as Change-makers) innovate & deliver substantially more impact on the ground run by **Head Held High Foundation and Mahindra & Mahindra.**
- 2. **Toyota Kirloskar Motor,** in its sustained outreach to create a better ecosystem in the area of CSR, launched the first-of-its-kind **'Social Academy of Learning (SALT) by Toyota**. With this program Toyota aims to further build the capacity of NPOs, ensure quality management, work excellence following the Toyota Way.

Raju Deepti of Jeevantirth participated in the first ever five-day residential cohort of the Social Academy of Learning by Toyota from 2nd -7th February, 2020 at the Toyota plant in Bidadi with the support of *KPMG India* and *Common Purpose in India*. Going through the exhaustive five day process we realized that we need to align ourselves well with the Global Sustainable Development Goals and equip ourselves for the future challenges of working in partnership for greater impact.

"Oh master of humbleness...
Give us blessing that we never become
alienated from the people
to whom we have to serve
like a friend or a servant."
– Gandhiji

Jeevantirth Trust Registration Number: F/499/Gandhinagar

Education

Problem Statement & Theory of Change

Children do get enrolled in the schools but they drop out (rather pushed out) from the school system because of 'Virtual Exclusion' - Virtual exclusion refers to children who are in school, but for whatever reason, not learning. Another problem is - Not Making the Transition to Secondary - Of the children who complete primary, most of them fail to make the transition to secondary. This is more in the case of girl child.

SDG Alignment

If need based quality education on pedagogy of knowledge construction is facilitated with the help of proper TLMs and experiential learning methods by trained and motivated BaalMitras; children will acquire learning skills and develop their inner potential to act as a change agents for the better world.

Jeevantirth runs many need base quality education programs for urban-rural poor children like "Kalarav" for school preparedness, "Baal Sanskar Kendras" for support education to the urban slum children, "RTE" to mainstream students admitted in private schools under Right to Education Act., "Girl Child Education" for the teen age girls to make them lifelong learner, "Value Education Program" for upper primary students, "Nature Education Program" for learning and being sensitive towards nature and other CSR educational programs in different parts of Gujarat.

2021-22

100 schools, 20,000 children.

Preparation of Manual on Value Education.

New initiative: Science on Wheels

2022-23

125 schools, 25,000 children.

Preparation of Manual on Girl Child Education.

New initiative: TLM Library.

2023-24

200 schools, 50,000 children.

Preparation of Manual on Education for sustainable development.

New initiative: Community oriented education.

Assumptions:

India is a country of "Young Age". India is projected to be the world's most populous country by 2025, surpassing China, its population exceeding 1.6 billion people by 2050. However, India has an astonishing demographic dividend where more than 50% of its population is below the age of 25 and more than 65% hovers below the age of 35. The average age of an Indian is 29 years, compared to 37 for China and 48 for Japan. We strongly believe that we need to invest most in children and youths by inculcating Right Knowledge, Right Skill and Right Attitude to make our beloved country leading to humanity.

Jeevantirth Trust Registration Number: F/499/Gandhinagar

Environment

Problem Statement & Theory of Change

Air pollution, poor management of waste, growing water scarcity, falling groundwater tables, water pollution, preservation and quality of forests, biodiversity loss, and land/soil degradation are some of the major environmental issues India faces today. They have direct negative effect on the most vulnerable sections of our society.

Through nature education, environmental awareness and activism we can move towards eco-way of life and sustainable development, that is, both a prosperous economy and a healthy environment that in many respects is the goal of diverse interest in the area of environmental issues, is the key for the future of India and the world. The shared and cooperative participation of the people, the government, the industrial sector, and NGO's can protect and nurture life forces on the mother earth.

Jeevantirth has developed mass communication materials in the form of exhibitions, activity sheets, training modules, booklets, videos & working models on Rain Water Harvesting, Global Warming, Renewable Energies and Eco-way of life. Jeevantirth also gives technical guidance and implementation support for above topics. Jeevantirth is engaged in Afforestation, Biodiversity Protection, Cultivation of Medicinal Plants and working on Forest based ecology, economy and culture in Dediapada taluka of aspirational District Narmada.

2021-22

- Eco-clubs in 25 Schools. Nursery for 1.00.000 Saplings.
- Eco-Audit in 10 Schools (Water/Energy and Waste Management)
- Seed bank in Dediapada Rain Water Harvesting at 5 Schools/Premises.

2022-23

- Eco-club support in 50 Schools. Nursery for 2,00,000 Saplings.
- Eco-Audit in 25 Schools (Water/Energy and Waste Management)
- Protection and Propagation of Endangered & Rare Spices in Dediapada.

2023-24

- Education for Sustainable Development in 50 Villages
- Eco-club support in 100 Schools. Nursery for 2,00,000 Saplings.
- Eco-Audit in 50 Schools (Water/Energy and Waste Management)

Assumptions:

We are made up of five basic elements; The Earth, The Water, The Air, The Fire and The Space. It is our "Shreya and Preya" - in interest and wellbeing - that we protect and nurture these elements. If we pollute, over exploit or waste them, The Mother Earth will be dead planet. Reverence for life can be foundation for our environment activism. Climate Change to Global Warming is one of the biggest issues before humanity and we all need to reduce our carbon footprint so the lives on this wonderful planet survive.

Rural Development

Problem Statement & Theory of Change

Depletion of natural resources, encroachment on common property resources, stagnation in agriculture, negative impact on small and marginal farmers of climate change due to Global Warming and resultant disparate migration to cities in search of livelihood pause great threat to rural economy and rural people.

SDG Alignment

If we accept "Right to satisfy Basic Needs and Right to Work" as a basic human right for all; empower rural communities to work towards "Assets Building having Synergetic Effect" through NRM, support for GAPs and value chain linkages; we can 'revitalise rural economy' and bring real 'Swaraj' village républic in India.

Founder trustees of Jeevantirth Raju and Deepti motivated by Gandhian way of 'Simple Living and High Thinking' and preferred village life. Jeevantirth started supporting "AadiAushadhi Groups" - SHGs of Traditional healers' families – of Dediapada doing SWOT analysis and activities like soil and water conversion, collection and cultivation of medicinal plants, small processing unit to manufacture herbal medicines. Two FPOs of about 1,000 farmers are formed and we are giving trainings of Organic Farming to them. Our aim is to make Dediapada taluka prosper through forest and agri based civilisation.

2021-22

- To prepare Village Development Plans for 5 Villages.
- To support 100 Farmers for Good Agricultural Practices and make 'Poshak Vadi' – Nutritional Garden.
- Sapling distribution of medicinal plants for support income.

2022-23

- Adopt 3 Villages for Integrated Eco-Village Development and put our efforts on Agriculture, Animal Husbandry, Education and Health first.
- Explore on the potential of Post Harvest Technologies for value addition.

2023-24

To spread the concept, and work upon Integrated Eco-Village Development in 10 villages.

To provide Value chain support in storage, agro processing, branding-packaging and marketing their products on social business model.

Assumptions:

India lives in its villages, and development of villages will be critical if we wants to close the gap between the "haves and have not's" for a better human development. India inched up one spot to rank 129th out of 189 countries on the 2019 Human Development Index (HDI) released the United **Nations** Development Programme (UNDP). There was a 'Krishna-Balaraam Sanskruti' – Agro-Husbandry Civilisation in India. Gandhiii Dreamt, "ideal village will contain intelligent human beings. They will not live in dirt and darkness as animals. Men and women will be free and able to hold their own against anyone in the world... if one can produce one ideal village, he will have provided a pattern not only for the whole country but perhaps for the whole world."

Women Empowerment

Problem Statement & Theory of Change

Traditionally, because of gender discrimination in society, girls are not allowed equal educational opportunities and women are considered to be caretakers of home and expected to obey orders of the elders of the family, but are kept in isolation when it came to major decision related to the family.

SDG Alignment

If teen age girls and women are motivated and empowered to be lifelong learners and celebrate womanhood by well designed need base curriculum and modules through participatory elective methods; they will develop their inner potential and bring social transformation by becoming enlightened citizens.

There are approximately 7000 women in 'RamapirNo Tekro' and nearby slums, who work late night or begin their day at 3 AM by collecting waste. They walk 10 to 15 kilometres collecting paper, glass, plastic, cardboards, etc. and make 70 to 80 rupees daily, hardly making ends meet. We are working with about 1,500 such women who save 200 rupees on a monthly basis which helps provide loans to women in need regarding health, education or employment. Moreover, "Aapni Dukaan" helps them obtain household items like wheat, rice, oil, gas connection, etc. at a lower cost and in instalments. Life related training is given to the women during SHGs group meetings and monthly assembly.

2021-22

- To strengthen women's credit-cooperative society, by increased memberships and making it self-sustaining.
- To ensure women lead, participate in, and benefit equally from governance systems.

2022-23

To ensure women have income security, decent work, and economic autonomy.

To ensure all women and girls live a life free from all forms of violence.

2023-24

To ensure that women and girls contribute to and have greater influence in building sustainable peace and resilience, and benefit equally from the prevention of natural disasters and conflicts and humanitarian action. They become enlightened citizens.

Assumptions:

BabaSaheb Ambedkar has rightly said, "I measure the progress of a community with the degree of progress women have achieved." 'Empowerment' may be described as a process which helps people to assert their control over the factors which affect their lives. Empowerment of women means developing them as more aware individuals, who are politically active, economically productive and independent and are able to make intelligent discussion in matters that affect them. Due recognition must be given to women and society should come forward to ensure equal status for women in all spheres of life.

Jeevantirth Trust Registration Number: F/499/Gandhinagar

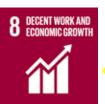

Employable Skills & Livelihood Support

Problem Statement & Theory of Change

The unemployment rate in India is record high since the country went into lockdown from March 2020, the corona virus outbreak has forced many industries to shut down thus increasing unemployment across the country. Lack of employable skill and shrinking livelihood opportunities is a big threat to the nations' wellbeing and progress.

SDG Alignment

If youths are appropriately trained with employable skills in the emerging fields of livelihood and they get decent jobs it can transform individual, family comes out of poverty forever and it brings positive changes in society. Societal peace and progress depends upon decent standard of living through right livelihood.

At Jeevantirth, in addition to the basic employable skill we give skill sets which are most important to the employer like regularity, punctuality, not going on frequent leaves, good behaviour, basic computer and communication skills, readiness to work and learn etc. Life-skills, value-education and personality development are integral part of our curriculum. This is the success mantra of our Vocational Training Program.

At present Jeevantirth is giving vocational trainings in Retail Marketing, Tally Accounting with GST, Beauty Parlour and Wellbeing and Sewing Class. For livelihood support we give sewing machines, pedal rickshaws, laries or small business loans. With the help of IIT Gandhinagar we have given entrepreneur trainings also.

2021-22

To give employable skills to 100 youths with 70% placement in Tally or Retail Marketing. To give Vocational trainings to 100 girls in beauty parlour or sewing. To give pedal rikshaws, laries etc. or business loans to 25 families. To create employment facilitation track for providing employable individuals access to locally available jobs.

2022-23

To give employable skills to 150 youths with 70% placement in Tally, Retail Marketing or other vocational training. To give Vocational trainings to 150 girls in beauty parlour or sewing. To give pedal rikshaws, laries etc. or business loans to 50 families. To create micro-enterprise development track for providing youths access to funds and training to set up their own microenterprise.

2023-24

To explore and support more livelihood options in rural sector especially post harvest technologies, value added agricultural, milk or healthy food products. To give employable skills and livelihood support to 500 families.

Assumptions:

The term "livelihood" is perfect for development professionals: they can easily tout it as a core tenet of their work because its definition is amorphous - "a means of securing the necessities of life." They can include everything from skills training for future employment, to multi-stakeholder coordination to address issues of financial security, household decision-making, purchasing power and long-term iob satisfaction. The objective of Sustainable the Livelihood Program is to reduce poverty and inequality generating employment among poor households and by moving highly vulnerable households sustainable livelihoods and toward economic stability.

Jeevantirth Trust Registration Number: F/499/Gandhinagar

Organization Development Plan

To Increase Happiness Index of Jeevantirth Parivar

Strategic Thrust: 2021-22

Personal Development Plan for all team members, Equal Opportunity for Growth.

Strategic Thrust: 2022-23

Create workplace happiness and spread cultural alignment. Provide flexibility and help them balance Work-Life.

Strategic Thrust: 2023-24

Motivate them to leave their comfort zones, make them life-long learners and bring out their best.

4

1 To Give Best To The Beneficiaries

Strategic Thrust: 2021-22

To Creating a Customer Service Roadmap for our beneficiaries by knowing them better and making beneficiary segmentation.

Strategic Thrust: 2022-23

To strategise and design our programs and policies that best suit to our vision-mission and expectations from the beneficiaries.

Strategic Thrust: 2023-24

To Design Value Realization Road Map in Collaboration with all the stockholders including donors, well-wishers, Govt. officials and ultimate beneficiaries.

Roadmap For Organization Development

To Move Towards Financial Sustainability 3

Strategic Thrust: 2021-22

Strong bonds with the existing donors and donor management tool in operation.

Strategic Thrust: 2022-23

Strong presence on social media and platforms through impact-fully showcasing our work.

Strategic Thrust: 2023-24

Exploring new partnerships and different ways and means for resource mobilization.

7 To Make Effective Use Of ICT

Strategic Thrust: 2021-22

Effective use of G-Suit and Asana tools for Internal Communication, Reporting and Documentation.

Strategic Thrust: 2022-23

Managing fundraising efforts, customer relationship and to accomplish IT environment made specifically for our goals and optimize our activities.

Strategic Thrust: 2023-24

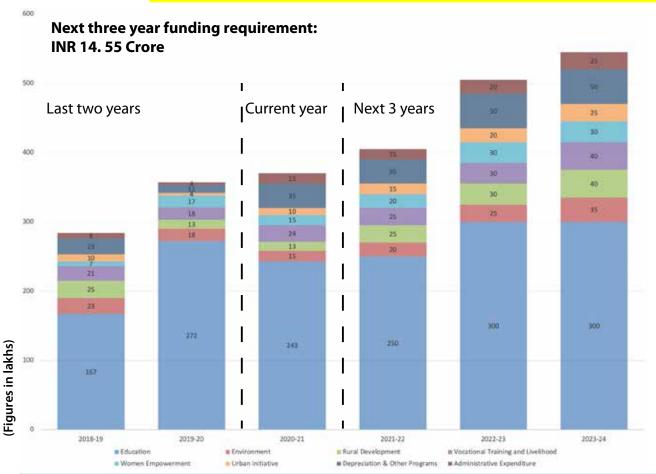

IT assessment audit, remove roadblocks and customise ICT policy based on two year's experience to make it more sound.

Gratitude & Join Us

Dear Friends of Jeevantirth,

All these years people like you have generously supported the activities of Jeevantirth and we value your contribution. Many donors are pro-active and send their contribution by itself. Over a period of time with your kind support, we have added many programs and the expenditure goes up.

We express our gratitude to all the individuals, partners, institutions, Government departments, corporate sector and all the stakeholders for their benevolent support in cash or kind without which we could have not achieved what has been done all these years.

We humbly appeal our well wishers and donors not only to **Donate Generously** but to **BE OUR AMBASSADOR.** If anybody can help us in drafting good proposals or put us in contact with potential individual, corporate or funding organization it will be of great help.

We are also in search of good development partners and corporate donors who can donate under their CSR policies. We can also jointly prepare and implement tailor-made projects for the companies to fit under their CSR verticals.
